Sir:

My previous petition to Request for Withdrawal of Holding of Abandonment for the above-captioned patent application has been dismissed in an Office Letter of Mar. 16, 2005. Due to the strong presumption of the special programs Examiner that the properly addressed and delivered to the united states postal service was in fact delivered to the address. Yes, it is believable since the Notice of Abandonment was received by the applicant, why the Office Communication which has the same address was not received? But the Examiner neglects the fact that an ordinary mail forward to a foreign country of different language is very easily lost. I follow the suggestion of the Examiner to check through my file and my reminding book, there is no any trace has been found, when I asked my relatives who may touched and/or saw the Office Communication. They answers in concert that "I didn't seen that letter." In such circumstances, I couldn't provide further evidence except the following.

DECISION ON PETITION
TO WITHDRAW THE
HOLDING OF ABANDONMENT

This is a decision on applicant's petition to withdraw the holding of abandonment filed in the United States Patent and Trademark Office (USPTO) on September 20, 2004.

The petition is **DISMISSED**.

A review of the file record reveals that a First Office Action was mailed to applicant on December 8, 2003. Since a response was not received before the expiration of the six-month statutory period for reply, the application became abandoned, and a Notice to that effect was mailed on August 12, 2004.

Applicant contends that the Office Action mailed December 8, 2003 was not received.

There is a strong presumption that mail properly addressed and delivered to the United States Postal Service was in fact delivered to the addressee. An allegation that an Office communication was not received may be considered in a formal petition for the withdrawal of the holding of abandonment, in accordance with *Delgar Inc. v. Schuyler*, 172 USPQ 513. However, the presumption that the Office communication was delivered to applicant may be overcome by a showing that the communication was not, in fact, received as indicated below.

Applicant's statements of non-receipt should include a statement by him, and by anyone else at applicant's correspondence address, that would have handled the Office communication. Applicant should also include any available documentary evidence of mail received, covering a reasonable period after the date of the Office communication, to show non-receipt of the communication in question. Copies of records on which the receipt date of the Office communication would have been entered had it been received, (e.g., a copy of the outside of the file maintained by applicant), are required if available. Also, a showing of any docket records, or other method which would serve as a reminder of a response due date, should be submitted. Whatever method applicant uses as a reminder, and submits in response to this decision should be adequately explained. Also, a statement is required that a search of the file maintained by applicant, or any other location where correspondence from the USPTO is kept,

BEST AVAILABLE COPY

failed to find a copy of the Office communication in question. Finally, applicant must state that he was in fact at the correspondence address of record at the time the Office action would have been received.

Any such exhibits should be submitted as part of statement(s) showing that no Office communication was ever received.

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.181" and should be mailed to the Commissioner for Patents, P.O. Box 1450, Technology Center 3600, Alexandria, VA 22313-1450.

Dear Sir :

In response to the Office Notice of Abandonment of August 12, 2004 for the reason that applicant's failure to timely file a proper reply to the Office letter mailed on December 8, 2003. It is a great surprise because applicant didn't receive the office letter of December 8, 2003. So that applicant had no way to timely file a proper reply to said office letter and has no evidence to prove the above fact except a filing receipt and an Office Notice of the publication of this case. Accordingly, applicant respectfully requests for the withdrawal the holding of the Abandonment due to failure to receive the Office Action of December 8, 2003 and simultaneously supplements a copy of the above said office letter of December 8, 2003 or continuously examines this case. Enclosed herewith the petition fee. Your expeditions decision to make decision for this case is respectfully requested.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
